---

The Gasco team got back to me and can meet at 2:30 this Friday at DEQ (Room E). The purpose of the meeting is to review the objectives of the in-water groundwater work plan that NW Natural submitted and the comments that DEQ, EPA and Partners provided comments on.

I do not expect that the meeting will get down to the detail of individual sampling locations. Consequently, folks should be able to fully participate by telephone if necessary.

Please let me know if you need to call in so we can set up the technology.
